## So, what's this all about anyway?

Dent and Jaze Companies have organized this special shooting opportunity just for Dent models! We know that photography session can be expensive. Having quality photos and good instruction is critical for new and intermediate models wanting to advance their modeling career. We're all about providing helpful and valuable services for models so we decided to offer our photography services to models outside our marketing who would be willing to travel to us to shoot.

We recognize that technically the shoot isn't totally free since you're responsible for the travel-related expenses but our hope is the savings would still be a benefit to you. If you make trip, we'll shoot with you no charge.

## I'm not familiar with Model Releases, in plain english, what exactly am I signing?

Releases are common-place tools at many other venues - especially where physical activity takes place. Model releases are an industry standard practice. A model release spells out the rights and permissions both parties have with regard to how the images can (or can't) be used. If your child is a minor it also signifies your consent for us to take their picture and that you won't sue us if, included in the pictures returned to you, there are some blurry pictures or ones with your child's eyes closed. While our studios are safe places for all ages, it also releases us from liability of accidental injury that could occur during the course of the shoot - especially where dance and other physical activity is taking place. If you have any specific questions related to the

release terms please contact the studio. A signed release will be required in order to participate. Please print and fill out the release below and bring it to the shoot.

### **Do you do re-touching?**

We will return all photos to you via google drive using the email address provided on the release form. We typically return all images to the client first unedited within 48hrs of the shoot. We then ask the client to review the images and select their favorite 2 or 3 images from each outfit. We'll then do basic retouching to those images and provide you back the final edited versions. Digital copies of final edited versions of your selected photos is also included at no additional charge.

### **About the Posing Study Guide**

When we work with model on helping them prepare for their career we invest heavily in helping models become proficient at posing on their own. Posing is an integral part of a model's responsibility. A commercial mode's value is heavily impacted by their ability to pose efficiently and effectively. As part of our shoot session will include a posing instruction and study session. This session help models understand important concepts like posture and body carriage as well as how to efficiently move on-set and in front of the camera so that posing is fluid, efficient and always portraying the model in the best way possible.

In order to models to be able to see and assess how their body reacts to different poses we do the posing study in a swimsuit. The session will include tips and tricks on how to always look your best, how to get the most out of posing on your own and images collected during this session will serve the model as a study guide for learning and memorizing poses. It's important to note that the images collected during the posing session will NOT be posted or used publicly. These are strictly for the model to use as a reference tool.

### **Steampunk Sessions**

Interested in a truly unique photography experience? Interested models can add this unique concept to their portfolio. These shoots are both fun and creative, plus it's not something you can get just anywhere! Steampunk is a style of design and fashion that combines historical elements and typically features steam-powered machinery rather than advanced technology. Generally clothing is consistent with victorian-era attire and is often decorated with gears, chains and other items commonly found in the steam-technology era. There's no additional cost to add a steampunk session to your shoot. We'll provide wardrobe and props (with a few restrictions we want to make you aware of:

- **Wardrobe:** We have a few garment pieces available models may use for this session. A model's participation in this session is dependent on their ability to fit into the wardrobe we have available. We'll want to talk sizes and fit in advance. Please bring black undergarments to wear underneath.
- **Props/Accessories:** We have a limited stock of related props that models may use for this session. Props include goggles, top hat, lace parasol and other items maybe be available.
- **Footwear:** We have a limited option of footwear available but due to variability in sizing we recommend models bring black heels or chunky boots with them for this concept that you're sure they will fit comfortably.
- **Makeup:** Models should bring bring red lipstick and some brown or black powder to create "dirt smudges" on their face.
